

## **Version 4.5.1 Release Notes**

2019-02-06

### **Contents**

Introduction – 2

Fixes – 2

Course Registration – 2

Fundful Integration – 2

## **Introduction**

This document describes the features added to release 4.5.0 of Sumac to create release 4.5.1.

## **Fixes**

Sumac becomes better: we released fixes for GYO, Reminders, Donations, Payments and Ticketing. Issues with Payment Processors and printing related to using Java 11 and Sumac 4.5.1 were resolved.

## **Course Registration**

Logic for household discounts changed: we make it more clear.

## **Fundful Integration**

When you import donations from Fundful into Sumac, the individual fundraiser is now recorded in the soft credit field.
